

UNIVERSITY OF ALASKA

AFFIRMATIVE ACTION SUMMARY REPORT

TO THE
BOARD OF REGENTS
2017

Board of Regents' Policy 04.02.012 (B) states:

The University of Alaska seeks to hire, train, and promote individuals based on qualifications and

demonstrated ability to perform the job. The University is committed to recruit and retain women and minorities in positions where they have been traditionally under-represented. The concept of affirmative action requires that practices that adversely impact protected classes should be eliminated unless the university can demonstrate a legally permissible basis. To ensure that the University of Alaska is in compliance with applicable laws, the University has adopted the following policy:

Total Employees System-wide by University and EEO Category

Summary of Goal Areas by University for 2017 Plan Year

The chart below shows the annual goal areas for each university and C...

Goal Summary by Occupational Category – 2017 Plan Year

The following provides a detailed explanation of annual goals by occupational category and university. It also compares data from the prior plan years (2015 & 2016) with the 2017 plan year. The information indicates whether the occupational category is being underutilized with females and/or minorities. Underutilization is present when we have fewer females and/or minorities in a particular job group than would be expected by their availability in the workforce based on the census data. The annual goals are based on the individualized campus affirmative action plans. If there is no underutilization, then there is no annual goal(s) needed in the occupational category.
